The perfect low-maintenance exterior products

The **Tando** brand of exterior building products leverages innovation and manufacturing technology to solve market challenges such as labor shortages, long lead times, and moisture concerns, all while meeting the consumer demand for mixed material exteriors and

low maintenance. From launching the first polymer shake over 40 years ago, to developing the **#1 Brand** of composite stone, **Tando** has a proven history of creating new categories, including **TandoStone™**, **Beach House Shake™**, and **TandoShake™**.

Preferred by siding installers, TandoStone is the Answer

Installing the look of stone is a smart investment, as it adds instant value to your home. However, labor shortages, jobsite delays and moisture management issues create pressure to complete stone projects on time and within budget.

Traditionally, installing stone is contracted out to a mason which increases the time and expense of an additional trade. Stone veneer is heavy and difficult to cut. What if siding applicators had a product that could complete the entire wall?

Enter **TandoStone**, the **#1 Brand of Composite Stone**. TandoStone features lightweight yet rigid panels that are fast and easy to install with traditional siding tools while no mortar or adhesives are required. And the same installer can install siding and **TandoStone** increasing an installer's "share of wall".

The proprietary composition of **TandoStone** is impervious to moisture making it perfect for installation in any weather and right to ground level or the roofline.

Stacked Stone - Sedona Bluff

Creek Ledgestone - Appalachian Ash

TandoStone is available in two styles:

Stacked Stone features a dry stack profile with smaller stones tightly compiled, while **Creek Ledgestone** emulates the rugged look of various hand-picked stones. All **TandoStone** products feature **Tando TruGrit**TM technology, a unique finish that gives each panel the rough, gritty feel of stone.

TandoStone fits *any application*:

TandoStone is a durable option for

- single-family
- multi-family, or
- commercial projects

Its lightweight design means easy one-person installation and stones will never break or fall off the wall.

Stacked Stone

Creek Ledgestone

Single Family

Multi-Family

Commercial

Creek Ledgestone

Our Creek Ledgestone emulates the rugged look of various hand-picked stones where the horizontal ledge is more defined than the vertical joints. It offers a rough, dimensional surface with jagged edges that play with natural lights and shadows.

Beach House Shake®

Beautiful Freedom

With the indistinguishable look of real cedar, **Beach House Shake** offers Beautiful Freedom ... freedom from costly upkeep, freedom from fading, rot and decay, freedom from moisture concerns, and much more.

Makes Time Stand Still

Impervious to moisture and offering unmatched durability, **Beach House Shake** can be used for ground contact or roofline applications. And its lightweight, durable design makes for an easy one-person installation.

Backed by the most aggressive product warranty in the industry – a fifty-year performance warranty plus a ten-year “looks like new” warranty, **Beach House Shake** has received a notice of acceptance from Miami-Dade County for successfully meeting all severe weather condition rigorous testing criteria.

Beautiful Freedom

Crafted for homeowners who value the authentic beauty of wood, **Beach House Shake** is the ultimate in low maintenance and high performance. From its subtle surface textures, graining, saw cuts, and natural color variations, **Beach House Shake** delivers the natural look of cedar without the upkeep, and that is truly Beautiful Freedom.

Beach House Shake - Lakeview Ontario Project Before & After

“The homeowner did all the research and told us she wanted to use Beach House Shake. She loved the look of natural cedar but was tired of the discolored ‘nasty-looking’ shakes in her words that were previously on the house. She was excited to find that Beach House Shake captured the natural look of fresh white cedar, but without the upkeep or continuous staining and repairs. The home is located right on Lake Ontario and constantly beaten up by harsh winters and temperature changes.

Afterwards, we just stood back and couldn’t believe how authentic Beach House Shake looked right down to the saw cuts, natural keyways and tone variations within each shake. You couldn’t tell it wasn’t cedar. It’s life-changing for the homeowner and transformative for our remodeling business.”

Sean Amendola, F.S.T. Construction

Beach House Shake®

Beautiful Freedom

Beach House Shake showcases the rich and timeless appeal of cedar shake without the yearly upkeep. Indistinguishable from real cedar, **Beach House Shake** comes in a 5” exposure and several natural colors. Its patent pending design allows installation with roofing nail gun and **Beach House Shake** has received a notice of acceptance from Miami-Dade County for meeting all severe weather conditions rigorous testing criteria.

The Original and Most Iconic Shake

TandoShake is the perfect low-maintenance alternative that will enhance any home style and add instant curb appeal. With 5 styles of **TandoShake** showcasing a broad range of wood grain textures, from fine & subtle details to rugged knots & grooves, combined with an extensive color collection to fit any home architecture or style.

Cape Cod Perfection and **RoughSawn Cedar** have fine wood grain textures and evenly aligned shingle heights, balanced by varying shingle widths, offering clean lines and an upscale look and feel.

Rustic Cedar 6, **Rustic Cedar 9**, and **Hand Split Shake** feature more rugged looks. With varying shingle heights and widths combined with deep wood grain textures, these profiles simulate the true hand crafted appearance of wood shakes.

Solid Color Series

We've developed and refined our Solid Color Series offering to include 12 of the most sought-after colors in the world of painted cedar.

Natural Color Series

Natural cedar shake ages and weathers over time as it is exposed to the elements, producing variations in both tone and texture. The Natural Color Series by **Tando**™ perfectly portrays the timeless elegance and spectacular curb appeal of naturally-aged cedar, from newly installed to years of sun exposure.

Signature Stain Color Series

Only our Signature Stain Color Series incorporates real wood stain into its patented process resulting in the creation of the only shake made with real wood stain that requires no upkeep.
